JULY 2024 UPDATE REPORT

GOLBANTI

Golbanti PEFA Missions Centre was able to successfully hold a School of Ministries seminar. Approximately 20 people were in attendance and it was such a blessing to the church leaders and Pastors who were present. The schools taught were Church planting and understanding God.

RUIRU REG:

Recently Grade 4 learners embarked on a class project of planting kales amongst other vegetables and they sprouted very well which was so exciting for them. Kales are very popular here in Kenya and more so for the needy families because they are very affordable, grow quickly and are very low maintenance when you produce them.

The aim of the project is to enable the learners embrace agriculture and show them how easy and important it is to have a kitchen garden.

COUNTRY UPDATE:

Schools have closed nationwide for three weeks and the learners will be taking a school break till the end of August. It will be a relief for many parents because of the past nationwide protests that have been ongoing majorly in Nairobi city which has often jeopardized the safety of many children who have to walk home, use a bus or get picked up by their parents/guardians.

GRATEFUL FOR:

A fruitful school term which has concluded.

PRAY FOR:

Love, peace and unity to prevail in the country and for the Gen-Z protests to come to an end.

THANK YOU!

Thank you for your amazing and great support. BMA wouldn't have come this far without your help. God bless you.
